	E8	0 Degrees	540	36m	1-2

All settings are based on spreader manufacturer data and are given as a guide only. It is always recommended that a tray test be performed on the product prior to spreading. Physical characteristics of products can vary between manufacturers. Spreaders should be well maintained and serviced regularly. Production and batch numbers are available on request. Product Safety Data sheets are available to download from www.glassonfertilisers.co.uk
